"It appears from your letter that in your interview with Mr. Atkins, whom you knew to be a newspaper correspondent, you spoke of a fellow-officer, your senior in rank, in a way calculated to bring him into contempt.

"You know this to be a violation of the naval regulations, which forbid the communication by interviews of auch communication by interviews of such communication by interviews and discipline of the service, because it is the example of one officer in high rank reflecting upon the honor and character of another—an example which, unrebuked and followed, tends to bring the whole ervice into contention and scandal. You knew that the professional business of your interviewer is to collect material for publication.

"While he may have not had justification in publishing what you understood, and regarded as understood by him, to be private conversation, you knew the risk you ran, and within a year had been reprimanded for similar mission-duct in putting yourself and the welfare of the service to the same risk with the same result. Many don't get as much exercise as they ought, and everybody knows that people gain weight in winter.
